1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Martin Bruehs on 12/7/05.

The application has been amended as follows:

In the set of claims filed 11/18/2005, please replace Page 3 with new Page 3, replace Page 7 with new Page 7 and replace Page 12 with new Page 12 (each new Page is attached).

Please cancel claims 37, 38, 55 and 56.

The amendment to Pages 3, 7 and 12 was made to overcome a typographical error in the siloxane formula. Claims 55 and 56 have been canceled because these claims contain product by process type limitations that do not, on their own, distinguish the claims from the prior art.

2. The following is an examiner's statement of reasons for allowance: For reasons of record, the instant claims are neither taught nor suggested by the prior art. The selection of the particular synthon, siloxane and catalysts in a process for preparing a nonturbid silicone oil of stable viscosity as claimed is neither taught nor adequately suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-
